

# RESEARCH PARTICIPANTS WANTED

## EXPLORING THE RELATIONSHIP BETWEEN ANOREXIA NERVOSA AND FLEXIBLE THINKING

We are looking for people to participate in a study investigating the relationship between anorexia nervosa and flexible thinking.

Participation will involve an interview, the completion of surveys and a computer-based task at Swinburne University of Technology. **Participants will be reimbursed \$25 for their participation.**

This research is looking for **females with a current diagnosis of anorexia nervosa** to participate. We are also inviting **females who have recovered from anorexia nervosa** and **healthy females without an eating disorder** to participate.

Eligibility criteria\*:

- Over the age of 18
- Female
- Fluent in English

\*Other eligibility criteria apply
